PROJECT OF LAWYERS WITHOUT BORDERS NETWORK

It is on the occasion of the International Conference of Bar association with common legal tradition (CIB) and under the leadership of the President of the Bar Mario Stasi and President of the Bar Titinga Pacéré that *Avocats Sans Frontières* was created after a resolution decided on its creation during a congress held at Yaounde (Cameroon) in December 1991.

It was then decided that *Avocats Sans Frontières* would have its headquarters in Brussels. It was thus the first *Avocats Sans Frontières* organization.

The first major operation conducted by Lawyers Without Borders was "Justice for All in Rwanda"; conceived at the end of 1994 and carried out during late 1996, it consisted of organizing the defense by foreign lawyers of the defendants and victims of genocide before the Rwandan courts; this experience, constructive for the Movement, was also in the history of Justice, a great first and its success was universally welcomed.

It was then in 1998, that Lawyers Without Borders grew with the creation of national associations in France, Italy, Holland, Switzerland, Denmark, Sweden, Mali or even in Mauritania. Later, other national associations have been created in Canada, Cameroon, Brazil and Guinea Conakry.

Currently, the various national components of the network have brilliantly illustrated themselves mostly through the quality and quantity of initiatives conducted in the field of law and justice. Their level of notoriety challenges the vision of the network and its consistency. **They receive more requests for help than they can deal with particularly because of an international representation that gives it coherence and visibility along with the means of its development.**
